1. SPIN-OUT

On December 19, 2008, Golden Predator Mines Inc. (GP) announced the proposed business reorganization and spin-out of its gold and silver focused, precious metals portfolio to a newly incorporated company named Golden Predator Royalty & Development Corp. ("GPD") described in Note 22 to the audited financial statements for the year ended December 31, 2008 for EMC Metals Corp. (formerly Golden Predator Mines Inc.). On March 4, 2009, the spin-out and all other matters voted on at the GP special shareholders meeting were successfully passed. On March 6, 2009, the Court approved the business reorganization and spin-out. Following the spin-out, GPD applied to list its shares on the TSX Venture Exchange. The existing parent company changed its name to EMC Metals Corp. and now trade under the TSX trading symbol EMC. EMC Metals Corp focuses its efforts as a specialty metals and alloy company targeting primarily tungsten, molybdenum, vanadium and uranium.

Unaudited comparative figures shown for prior periods have been restated to reflect only the assets, liabilities and corresponding expenses related to the Company. Audited 2008 year end figures for assets, liabilities, and shareholders' equity are as follows:

2. BASIS OF PRESENTATION AND PRINCIPLES OF CONSOLIDATION

EMC Metals Corp. (formerly Golden Predator Mines Inc.) (the "Company") is incorporated under the laws of the Province of British Columbia. The Company intends to refit its Springer Tungsten mill with a view to processing ore. To March 31, 2009 the Company has not commenced its planned principal business activities and has generated no revenue. Additionally, the Company's properties are in the exploration or pre-exploration stage and it intends to commence exploration of its unproven mineral interests. As such, the Company is in the exploration stage and anticipates incurring significant expenditures prior to commencement of contract milling operations.

These interim consolidated financial statements include the accounts of EMC Metals Corp. and its subsidiaries and are prepared in accordance with Canadian generally accepted accounting principles. They do not include all the disclosures required for annual financial statements under generally accepted accounting principles. These interim consolidated financial statements should be read in conjunction with GP's annual consolidated financial statements and GPD's annual consolidated financial statements for the year ended December 31, 2008 which are available through the Internet on SEDAR at www.sedar.com.

These interim consolidated financial statements reflect the financial position, statements of operations and deficit and cash flows of the related business of the Company. The statement of operations and deficit for the three months ended March 31, 2009 and 2008 reflect an allocation of GP's general and administrative expenses incurred in each of these periods. The allocation of general and administrative expenses was calculated on the basis of the ratio of the assets transferred to GPD compared to the total assets of GP as at December 31, 2008. Management cautions readers of these interim consolidated financial statements, that the allocation of expenses does not necessarily reflect future general and administrative expenses.

These interim consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and discharge of liabilities at their carrying values in the normal course of business for the foreseeable future. These financial statements do not reflect any adjustments that may be necessary if the Company is unable to continue as a going concern.

The Company currently earns no operating revenues. The Company's ability to continue as a going concern is uncertain and is dependent upon the generation of profits from mineral properties, obtaining additional financing or maintaining continued support from its shareholders and creditors. In the event that additional financial support is not received or operating profits are not generated, the carrying values of the Company's assets may be adversely affected. Operating results for the three month period ended March 31, 2009 are not necessarily indicative of the results that may be expected for the full fiscal year ending December 31, 2009.

8. UNPROVEN MINERAL INTERESTS (cont'd...)

Title to mineral property interests involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many mineral property interests. The Company has investigated title to all of its mineral property interests and, to the best of its knowledge, title to all of its properties are in good standing.

TUNGSTEN PROPERTY

Springer Mine and Mill Facility

On November 21, 2006, the Company acquired all outstanding and issued shares of Springer Mining Company. Included in the assets of Springer are the Springer Mine and Mill located in Pershing County, Nevada.

GOLD PROPERTIES

Phoenix Joint Venture

On December 27, 2007, the parties to Phoenix JV exercised their option to purchase the Lewis mineral property in Lander County, Nevada by making a cash payment of USD \$2,000,000 together with the first payment of the advance royalty in the cash amount of USD \$60,000. These payments were funded by GAM for its 40 per cent stake and by Madison Minerals Inc, the JV partner, for the remaining 60 percent.

High Grade Project

The Company has a lease option agreement on claims located in Modoc County, California. The Company is required to pay an annual lease payment due July 31st of \$25,000 to maintain this agreement. The Company has the option to purchase the property for \$500,000, less advanced royalty payments previously paid, and includes a 2% net smelter returns royalty (NSR) retained by the owners.

Treasure Hill

On March 21, 2008, the Company acquired a 50% interest in the Treasure Hill property in White Pine Valley, Nevada from Century Gold LLC for cash consideration of \$1,679,865 and the remaining 50% from Allied Nevada Gold Corp. for cash consideration of \$1,009,399 on April 30, 2008. The Treasure Hill property is subject to a 2% NSR in favor of the vendors which can be repurchased by the Company.

Modoc

The Company has a lease and option to purchase two-thirds interest in 12 mineral claims comprising the Modoc gold property, located in Lander County, Nevada. The Company owns the remaining one-third interest. In order to maintain the lease interest, the Company paid \$50,000USD in March, 2008 and is further required to pay US\$100,000 annually thereafter and incur US\$500,000 in work commitments prior to September 1, 2008 and a further US\$500,000 prior to September 1, 2009. The Company may purchase the remaining two-thirds interest in the claims at any time by providing a cash payment of US\$2,000,000 and a 3% net smelter returns royalty to the vendor. The Company is currently negotiating the work commitment schedule with the optionor and had paid to the optionor \$10,000USD in March 2009.

8. UNPROVEN MINERAL INTERESTS (cont'd...)

On February 5, 2009, a binding memorandum agreement (the "Agreement") was signed between GAM and Golden Predator Mines US Inc. (GPUS), a subsidiary of GPD whereby GAM would lease or assign non-core gold mineral properties to GPUS under customary commercial terms. The Agreement is subject to concluding a definitive agreement.

9. CONVERTIBLE DEBENTURES

	March 31, 2009	December 31, 2008
Convertible Debentures	\$ -	\$ 2,886,329

Prior to acquisition by the Company (Note 3) GAM completed a USD\$2,340,625 convertible secured debenture maturing three years from issuance. The debenture is secured against all assets of GAM and bears an 8% interest payable annually. The debenture also bears additional interests and penalties and is presented as a current liability as a result of a breach of various covenants prior to acquisition by the Company.

The debentures are convertible into GAM shares at \$2.00 per share. Attached to each debenture is a quarter share purchase warrant at an exercise price of \$2.50 each for one GAM share. Under the terms of the Purchase Agreement by the Company, each GAM share is convertible into shares of the Company at the 6.1538 exchange ratio. As stated in the Debenture agreement, GAM's management is obligated to arrange for the conversion of the GAM shares into the acquirer's shares in case of a change in control.

On February 18, 2009, an agreement was reached with holders of the Debentures to settle the Debentures. The holders received 105% of their principal amount plus accrued interest as at February 18, 2009 in common shares of the Company. In addition, the holders of the Debentures received share purchase warrants of the Company exercisable to acquire an aggregate of up to 1,787,374 shares of the Company at US\$0.30 per share for a period of two years. The holders of the debentures also received share purchase warrants to acquire an aggregate of up to 446,844 shares of GPD, a spin-out company from the Company, exercisable at US\$0.45 per share for a period of one year.

10. PROMISSORY NOTE PAYABLE

	2009	2008
Promissory note principle US\$ 3,750,000, bearing interest at 6% per annum, maturing July 3, 2013	\$ 4,725,750	\$ -

On July 30, 2008, the Company issued a promissory note to Cosgrave Ranch, LLC ("Cosgrave") in connection with the acquisition of water rights and land from Cosgrave for US\$6,750,000. The note bears interest at 6% per annum and matures in 5 years. The interest is payable by cash or the Company's shares. Further, the note was secured by a US\$ 3 million letter of credit and a lien on the land, equipment and a portion of the water rights.

On October 27, 2008, the Company reached an amendment agreement with Cosgrave for the promissory note. Pursuant to the amendment agreement, the US\$3 million cash backed Letter of Credit held in favor of Cosgrave was cancelled and the corresponding cash collateral was released by the financial institution issuing the letter of credit on the Company's behalf. US\$2 million of the proceeds was retained by the Company. The balance of US\$1 million was paid to Cosgrave in addition to 4,728,000 units of the Company. Each unit consists of one common share and one-half share purchase warrant exercisable at CDN\$0.75 each for a period of two years. As a result of the amendment and partial payment of the promissory note, a principal balance of US\$3.75 million remains payable at the same terms with the exception that the interest must be paid in cash quarterly.

Interest expense of \$93,750 was accrued for the three months ended March 31, 2009 and paid on April 1, 2009.

Stock-based compensation (cont'd...)

During the first three months in 2009, the Company recognized stock based compensation of (\$1,072,955) in the statement of operations as a result of vested shares expired and cancelled net of shares for services and incentive stock options granted and vested. The weighted average fair value of options granted was \$0.55 per share.

The fair value of all compensatory options and warrants granted is estimated on grant date using the Black-Scholes option pricing model. The weighted average assumptions used in calculating the fair values are as follows:

	<u>2008</u>
Risk-free interest rate	1.24%
Expected life	3 years
Volatility	183%
Dividend rate	0.00%

The Company's holdings of the common shares of Fury were converted to treasury stocks and warrants upon closing of the Fury acquisition on August 15, 2008.

13. CAPITAL DISCLOSURES

The Company's objectives when managing capital are:

- to safeguard the Company's ability to continue as a going concern, so that it can continue to provide returns for shareholders and benefits for other stakeholders, and
- to provide an adequate return to shareholders by pricing products commensurately with the level of risk.

The Company considers the items included in shareholders' equity as capital. The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may issue new shares through public and/or private placements, sell assets to reduce debt or return capital to shareholders. The Company is not subject to externally imposed capital requirements.

14. FINANCIAL INSTRUMENTS

The Company's risk exposures and the impact on the Company's financial instruments are summarized below:

Credit risk

Credit risk is the risk of loss associated with a counterparty's inability to fulfill its payment obligations. The Company's credit risk is primarily attributable to cash equivalents, receivables, loan receivables, and reclamation bonds. The Company has no significant concentration of credit risk arising from operations. Cash equivalents consist of banker's acceptances issued by major banks and corporations, for which management believes the risk of loss to be minimal. Receivables mainly consist of interest receivable from the banker's acceptances, loan receivables, and goods and services tax refunds due from the Federal Government of Canada. Management believes that the credit risk concentration with respect to receivables is minimal. Loans receivable consist of a second mortgage for an employee and loan to a third party (Note 4 and Note 5) and reclamation bonds consist of term deposits and guaranteed investment certificates, which have been invested with reputable financial institutions, from which management believes the risk of loss to be minimal.

Liquidity risk

Liquidity risk is the risk that the Company is unable to meet its financial obligations as they come due. The Company manages this risk by careful management of its working capital to ensure its expenditures will not exceed share capital financings or proceeds from property sales or options.

At December 31, 2008, the Company had a working capital deficiency which was alleviated subsequent to year end. On February 18, 2009, the Company successfully negotiated the conversion of the entire convertible debenture balance and the related interests into shares and warrants of the Company. (Note 22)

Market risk

Market risk is the risk of loss that may arise from changes in market fluctuations such as those listed below. The fluctuations may be significant.

(a) Interest rate risk

The Company has cash balances, banker's acceptances, guaranteed investment certificates, and convertible debenture. The Company's current policy is to invest excess cash in investment-grade short-term deposit certificates issued by its banking institutions. Further, the Company negotiated to convert the convertible debenture into shares of the Company (Note 10). The Company also annually monitors the investments it makes and is satisfied with the credit ratings of its banks.

(b) Foreign currency risk

The Company's functional currency is the Canadian dollar and major purchases and expenditures are transacted in US dollars. The Company funds certain operations, exploration and administrative expenses in US dollar currency from its Canadian dollar bank accounts. Management believes the foreign exchange risk derived from currency conversions and relative exchange rate between Canadian dollars and US dollars is negligible and therefore does not hedge its foreign exchange risk.

(c) Price risk

The Company is exposed to price risk with respect to commodity and equity prices. The Company closely monitors commodity prices to determine the appropriate course of action to be taken by the Company.

14. FINANCIAL INSTRUMENTS (cont'd...)

Sensitivity analysis

Equity price risk is defined as the potential adverse impact on the Company's earnings due to movements in individual equity prices or general movements in the level of the stock market.

Based on management's knowledge of and experience in the financial markets, management does not believe that the Company's current financial instruments will be affected by interest rate risk, foreign currency risk and price risk within the next three months. In particular, interest rate risk is remote as the Company doesn't hold significant investments earning interest. The Company does not hold significant balances in foreign currencies to give rise to exposure to foreign exchange risk. In addition, price risk is remote since the Company is not a producing entity. However, the Company is exposed to market risk because of the fluctuating values of its publicly traded marketable securities. The Company has no control over these fluctuations.

15. SEGMENTED INFORMATION

The Company's mineral properties are located in Canada and the United States and its capital assets' geographic information is as follows:

	Canada	United States	Total
Fixed assets	\$ 181,923	\$ 35,100,639	\$ 35,282,562
Mineral properties	-	27,232,903	27,232,903
	<u>\$ 181,923</u>	<u>\$ 62,333,542</u>	<u>\$ 62,515,465</u>

16. SUPPLEMENTAL DISCLOSURE WITH RESPECT TO CASH FLOWS

The significant non cash transactions during the three months ended March 31, 2009 included:

- a) Issued 2,147,000 common shares to Canyon Resources Corporation for Adelaide and Tuscarora projects.
- b) Issued 66,667 common shares to Gillian KM Kearvell for Guijoso property.
- c) Issued 7,336,874 common shares for retirement of Convertible Debentures.

	\$ <u>74,563</u>

The Company entered into a management services agreement with a corporation controlled by an officer under which the Company is obligated to pay \$ 110,796 per year for two years ending on December 31, 2009.

18. RELATED PARTY RECEIVABLES AND TRANSACTIONS

The Company entered into management services agreements with corporations controlled by a director and an officer under which the Company paid \$72,855 during the quarter.

As at March 31, 2009, \$640,007 (2008 – nil) was due from a related party for expenditures paid by the Company. The company and the related party share office facilities and certain staff on an on-going basis. All amounts are billed on a cost-recovery basis.

These transactions are in the normal course of operations and have been valued in these financial statements at the exchange amount which is the amount of consideration established and agreed to by the related parties.

19. SUBSEQUENT EVENTS

- a) On April 21, 2009, the Company issued 51,859 common shares valued at \$5,185.90 to Columbus Gold Corporation Canada in satisfaction of an option agreement.
